Art Unit: 2817

The disclosure is objected to because of the following informalities: Page 2, line 28, similarly, note that ... by projection or by brush” is still vague in meaning and needs clarification. Appropriate correction is required.

Claims 6-8 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

In claim 6, note that the recitation of the “inner bar having a diameter nearly equal to the inner diameter of the tube” does not appear to have been supported by the original disclosure, since there does not appear to be any explicit or implicit disclosure of this limitation in the application as originally filed, and thus has to be treated as “new matter”.

However, if applicants’ do not believe the above noted limitation is “new matter”, then an appropriate explanation is required, including pointing out exactly where in the original disclosure can be found to support the limitation identified as “new matter”.

The following claims have been found objectionable for the reasons set forth below:

In claims 2, 7, 8, note that “... is a crenelation curve” should be rephrased as --includes a plurality of crenellations-- for an appropriate characterization.

In claim 5, note that “is a crenelation function” should be rephrased as --includes a plurality of crenellations-- for an appropriate characterization.

Art Unit: 2817

Applicant's arguments, (see remarks) filed 12 April 2007, with respect to the prior art rejections have been fully considered and are persuasive. Accordingly, the prior art rejections made in the 9 January 2007 Office action have been withdrawn.

Claims 1, 2, 5 are allowable over the prior art of record.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication should be directed to Benny Lee at telephone number 571 272 1764.
